

OVERALL SCORE

29 /100 Poor

Executive summary

This site is difficult for AI tools to read right now. Key strengths include sitemap and structured data, while homepage access and crawler policy need attention. Recommended next step: remove AI crawler Disallow: / rules or replace them with narrower path-level restrictions for private content only.

Recommended next step

- 1. Remove AI crawler Disallow: / rules or replace them with narrower path-level restrictions for private content only.
- 2. Remove AI crawler Disallow: / rules or add narrower Allow/Disallow rules if AI crawlers should be able to discover public content.
- 3. Publish /llms.txt as text or markdown with more than 200 characters, markdown headings, and at least one absolute URL.

|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|--------|
| <b>Sitemap</b>                                                                                                                                                                                | Pass | 10/10  |
| The sitemap.xml file is valid and contains URL entries.                                                                                                                                       |      |        |
| <b>Markdown support</b>                                                                                                                                                                       | Fail | 0/15   |
| Add content negotiation for Accept: text/markdown on the homepage and return a markdown representation with Content-Type: text/markdown. Keep the HTML response for regular browser requests. |      |        |
| <b>Semantic HTML</b>                                                                                                                                                                          | Warn | 8.6/10 |
| Add missing semantic elements: article.                                                                                                                                                       |      |        |
| <b>Structured data</b>                                                                                                                                                                        | Pass | 10/10  |
| Valid JSON-LD structured data was found with core Organization or WebSite schema.org types.                                                                                                   |      |        |
| <b>Content signals</b>                                                                                                                                                                        | Fail | 0/5    |
| Add the standard directive 'Content-Signal: ai-train=no, search=yes, ai-input=yes' to robots.txt, HTML metadata, or HTTP headers so AI systems can discover content usage preferences.        |      |        |

## Suggested fixes
