Needs Work

Executive summary

This site has a useful foundation, but important gaps still limit AI readability. Key strengths include AI guidance file and sitemap, while plain-text page access and content signals need attention. Recommended next step: add content negotiation for Accept: text/markdown on the homepage and return a markdown representation with Content-Type: text/markdown. Keep the HTML response for regular browser requests.

Recommended next step

1. Add content negotiation for Accept: text/markdown on the homepage and return a markdown representation with Content-Type: text/markdown. Keep the HTML response for regular browser requests.
2. Review AI crawler Disallow rules and keep only the paths that should be excluded from AI crawler access; serve a non-empty HTML homepage with a canonical link tag.
3. Review AI crawler Disallow rules and keep only the paths that should be excluded from AI crawler access.

|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-------|
| <b>Sitemap</b>                                                                                                                                                                                | Pass | 10/10 |
| The sitemap index is valid and the checked child sitemap contains URL entries.                                                                                                                |      |       |
| <b>Markdown support</b>                                                                                                                                                                       | Fail | 0/15  |
| Add content negotiation for Accept: text/markdown on the homepage and return a markdown representation with Content-Type: text/markdown. Keep the HTML response for regular browser requests. |      |       |
| <b>Semantic HTML</b>                                                                                                                                                                          | Pass | 10/10 |
| The homepage has a valid title, meta description, heading structure, semantic landmarks, substantial body copy, and descriptive anchor text.                                                  |      |       |
| <b>Structured data</b>                                                                                                                                                                        | Pass | 10/10 |
| Valid JSON-LD structured data was found with core Organization or WebSite schema.org types.                                                                                                   |      |       |
| <b>Content signals</b>                                                                                                                                                                        | Fail | 0/5   |
| Add the standard directive 'Content-Signal: ai-train=no, search=yes, ai-input=yes' to robots.txt, HTML metadata, or HTTP headers so AI systems can discover content usage preferences.        |      |       |

## Suggested fixes

|                                                                                                                                                                                            |
