Needs Work

### Executive summary

This site has a useful foundation, but important gaps still limit AI readability. Key strengths include sitemap and structured data, while AI guidance file and plain-text page access need attention. Recommended next step: publish an AI guidance file as text or markdown with more than 200 characters, markdown headings, and at least one absolute URL.

### Recommended next step

- Publish /llms.txt as text or markdown with more than 200 characters, markdown headings, and at least one absolute URL.
- Add content negotiation for Accept: text/markdown on the homepage and return a markdown representation with Content-Type: text/markdown. Keep the HTML response for regular browser requests.
- Review AI crawler Disallow rules and keep only the paths that should be excluded from AI crawler access; serve a non-empty HTML homepage with a canonical link tag.
