PUBLIC AI VISIBILITY REPORT

spend360.ai

Scanned Jun 23, 2026, 08:33 UTC

OVERALL SCORE

44 /100

Needs Work

Executive summary

This site has a useful foundation, but important gaps still limit AI readability. Key strengths include sitemap, while plain-text page access and structured data need attention. Recommended next step: make the homepage respond successfully to requests with Accept: text/markdown, either by serving markdown directly or by adding a markdown variant URL with correct content negotiation.

Recommended next step

1. Make the homepage respond successfully to requests with Accept: text/markdown, either by serving markdown directly or by adding a markdown variant URL with correct content negotiation.
2. Review AI crawler Disallow rules and keep only the paths that should be excluded from AI crawler access; serve a non-empty HTML homepage with a canonical link tag.
3. Add JSON-LD structured data with Organization or WebSite schema so AI systems can identify the site owner or website entity.

Signal breakdown

Crawlability

Warn 10/20

Review AI crawler Disallow rules and keep only the paths that should be excluded from AI crawler access; serve a non-empty HTML homepage with a canonical link tag.

Robots.txt

Warn 7.5/15

Review AI crawler Disallow rules and keep only the paths that should be excluded from AI crawler access.

llms.txt

Warn 7.5/15

Publish /llms.txt as text or markdown with more than 200 characters, markdown headings, and at least one absolute URL.

Sitemap

Pass 10/10

The sitemap.xml file is valid and contains URL entries.

Markdown support

Fail 0/15

Make the homepage respond successfully to requests with Accept: text/markdown, either by serving markdown directly or by adding a markdown variant URL with correct content negotiation.

Semantic HTML

Warn 8.6/10

Add missing semantic elements: main, article.

Structured data

Fail 0/10

Add JSON-LD structured data with Organization or WebSite schema so AI systems can identify the site owner or website entity.

Content signals

Fail 0/5

Add the standard directive 'Content-Signal: ai-train=no, search=yes, ai-input=yes' to robots.txt, HTML metadata, or HTTP headers so AI systems can discover content usage preferences.

Suggested fixes

Fix Structured data

HTML

```
<script type="application/ld+json">
{
"@context": "https://schema.org",
"@graph": [
{
"@type": "Organization",
"@id": "https://spend360.ai/#organization",
"name": "Spend360 - AI Spend Management & LLM Cost Tracking Dashboard",
"description": "Track AI API costs across OpenAI, Anthropic, Gemini, and
Azure. Monitor LLM spend, set budgets, detect anomalies, and stop surprise
AI bills.",
"url": "https://spend360.ai/"
},
{
"@type": "WebSite",
"@id": "https://spend360.ai/#website",
"name": "Spend360 - AI Spend Management & LLM Cost Tracking Dashboard",
"description": "Track AI API costs across OpenAI, Anthropic, Gemini, and
Azure. Monitor LLM spend, set budgets, detect anomalies, and stop surprise
AI bills.",
