

OVERALL SCORE

99 /100

AI - Ready

Executive summary

This site is in strong shape for AI discovery and readability. Key strengths include homepage access and crawler policy, while page structure needs attention. Recommended next step: shorten the meta description to 160 characters or fewer.

Recommended next step

- 1. Shorten the meta description to 160 characters or fewer.

Signal breakdown

Crawlability The homepage resolves, connects, returns HTTP 200 OK, exposes a canonical URL, and is not blocked by robots.txt.	Pass	20/20
Robots.txt robots.txt allows crawler access and includes Sitemap references.	Pass	15/15
llms.txt The llms.txt file was found and includes the expected text, length, heading, and URL signals.	Pass	15/15
Sitemap The sitemap.xml file is valid and contains URL entries.	Pass	10/10
Markdown support The homepage returns markdown content when requested with Accept: text/markdown, giving AI systems a cleaner text representation with less navigation chrome to parse.	Pass	15/15

Semantic HTML

Warn8.6/10

Shorten the meta description to 160 characters or fewer.

Structured data

Pass10/10

Valid JSON-LD structured data was found with core Organization or WebSite schema.org types.

Content signals

Pass5/5

Consider adding Content-Signal HTTP header, robots noai/noimageai directive, Content-Signal robots.txt directive so AI systems can consistently discover content usage preferences across robots.txt, HTTP headers, and HTML metadata.

llms.txt

MARKDOWN

DreamKid - Stories where your child is the hero

> A brand-new AI story starring your child - written, narrated and illustrated around their name, the world they choose, and the companions they bring along. The first chapter is free.

This llms.txt file summarizes the public, canonical resources that AI assistants and crawlers should use to understand this site.

Site Overview

- Canonical URL: https://dreamkid.ai/
- Site type: organization
- Recommended summary: A brand-new AI story starring your child - written, narrated and illustrated around their name, the world they choose, and the companions they bring along. The first chapter is free.

Core URLs

- [Homepage](https://dreamkid.ai/): Primary public entry point and canonical site overview.
- [Download on the App Store](https://apps.apple.com/de/app/dream-kid-ai/id6468964308?l=en-GB): Important public page discovered from the homepage navigation.
- [Get it on Google Play](https://play.google.com/store/apps/details?id=com.dreamkidaii.app): Continued in the full scan report...

robots.txt additions

TXT

```
# robots.txt additions
# Copy these blocks into the existing robots.txt file. Keep current rules
unless a note calls out a conflicting Disallow.

# AI crawler access
# Add explicit Allow rules for AI crawlers so public content permissions are
clear.

Content-Signal

TXT

Content-Signal recommendations

Use these directives to make AI-use preferences explicit for compliant crawlers and AI systems. They are advisory signals, so keep them aligned with robots.txt, terms, and access controls.

Recommended values

- ai-train=no: AI model training, fine-tuning, and dataset creation.
- search=yes: AI search indexing, snippets, and discovery.
- ai-input=yes: AI answer grounding, retrieval, and generated-response context.

HTTP response header

```
'''http
Content-Signal: ai-train=no, search=yes, ai-input=yes
Content-Usage: train-ai=n
'''
```

Best for site-wide or route-specific policies because the signal travels with every response, including pages that AI systems fetch directly.

HTML meta tag alternatives

Add these inside the document '`<head>`' when server headers are not
