PUBLIC AI VISIBILITY REPORT

speshaudio.com

Scanned Jul 4, 2026, 11:01 UTC

OVERALL SCORE

46 /100

Needs Work

Executive summary

This site has a useful foundation, but important gaps still limit AI readability. Key strengths include crawler policy and sitemap, while AI guidance file and plain-text page access need attention. Recommended next step: publish an AI guidance file as text or markdown with more than 200 characters, markdown headings, and at least one absolute URL.

Recommended next step

1. Publish /llms.txt as text or markdown with more than 200 characters, markdown headings, and at least one absolute URL.
2. Add content negotiation for Accept: text/markdown on the homepage and return a markdown representation with Content-Type: text/markdown. Keep the HTML response for regular browser requests.
3. Serve a non-empty HTML homepage with a canonical link tag that points to the preferred public URL.

Signal breakdown

Crawlability

Warn 10/20

Serve a non-empty HTML homepage with a canonical link tag that points to the preferred public URL.

Robots.txt

Pass 15/15

robots.txt allows crawler access and includes Sitemap references.

llms.txt

Fail 0/15

Publish /llms.txt as text or markdown with more than 200 characters, markdown headings, and at least one absolute URL.

Sitemap

Pass 10/10

The sitemap.xml file is valid and contains URL entries.

Markdown support

Fail 0/15

Add content negotiation for Accept: text/markdown on the homepage and return a markdown representation with Content-Type: text/markdown. Keep the HTML response for regular browser requests.

Semantic HTML

Warn 5.7/10

Shorten the title tag to 70 characters or fewer. Shorten the meta description to 160 characters or fewer. Add missing semantic elements: article.

Structured data

Warn 5/10

Prefer valid JSON-LD and include Organization or WebSite schema.org types in valid JSON-LD for clearer AI interpretation.

Content signals

Fail 0/5

Add the standard directive 'Content-Signal: ai-train=no, search=yes, ai-input=yes' to robots.txt, HTML metadata, or HTTP headers so AI systems can discover content usage preferences.

Suggested fixes

Fix Structured data

HTML

```
<script type="application/ld+json">
{
"@context": "https://schema.org",
"@graph": [
{
"@type": "Organization",
"@id": "https://speshaudio.com/#organization",
"name": "Spesh Audio - Icerik Ureticileri Icin En Gercekci Yapay Zeka Seslendirmesi",
"description": "Spesh Audio ile metinlerinizi saniyeler icinde dogal ve gercekci seslendirmelere donusturun. YouTube, sosyal medya ve icerik ureticileri icin en gelismis yapay zeka seslendirme arac .",
"url": "https://speshaudio.com/",
"logo": "https://speshaudio.com/icon.png?icon.3d8e9116.png"
},
{
"@type": "WebSite",
