

OVERALL SCORE

25 /100 Poor

Executive summary

This site is difficult for AI tools to read right now. The main areas needing attention are plain-text page access and sitemap. Recommended next step: add content negotiation for Accept: text/markdown on the homepage and return a markdown representation with Content-Type: text/markdown. Keep the HTML response for regular browser requests.

Recommended next step

- 1. Add content negotiation for Accept: text/markdown on the homepage and return a markdown representation with Content-Type: text/markdown. Keep the HTML response for regular browser requests.
- 2. Serve a non-empty HTML homepage with a canonical link tag that points to the preferred public URL.
- 3. Regenerate sitemap.xml with valid XML and a sitemap <urlset> or <sitemapindex> root element.

Signal breakdown

|                                                                                                                                                                           |      |        |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|--------|
| <p>Crawlability</p> <p>Serve a non-empty HTML homepage with a canonical link tag that points to the preferred public URL.</p>                                             | Warn | 10/20  |
| <p>Robots.txt</p> <p>Fix robots.txt syntax issues so each rule uses Field: value format, directives appear under a User-agent, and Sitemap entries use absolute URLs.</p> | Warn | 7.5/15 |
| <p>llms.txt</p> <p>Publish /llms.txt as text or markdown with more than 200 characters, markdown headings, and at least one absolute URL.</p>                             | Warn | 7.5/15 |

|                                                                                                                                                                                                                                                    |      |      |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|------|
