

OVERALL SCORE

33 /100 Poor

Executive summary

This site is difficult for AI tools to read right now. Key strengths include sitemap, while AI guidance file and plain-text page access need attention. Recommended next step: publish an AI guidance file as text or markdown with more than 200 characters, markdown headings, and at least one absolute URL.

Recommended next step

- 1. Publish /llms.txt as text or markdown with more than 200 characters, markdown headings, and at least one absolute URL.
- 2. Add content negotiation for Accept: text/markdown on the homepage and return a markdown representation with Content-Type: text/markdown. Keep the HTML response for regular browser requests.
- 3. Review AI crawler Disallow rules and keep only the paths that should be excluded from AI crawler access; serve a non-empty HTML homepage with a canonical link tag.

| The sitemap.xml file is valid and contains URL entries.                                                                                                                                       |      |        |
| <b>Markdown support</b>                                                                                                                                                                       | Fail | 0/15   |
| Add content negotiation for Accept: text/markdown on the homepage and return a markdown representation with Content-Type: text/markdown. Keep the HTML response for regular browser requests. |      |        |
| <b>Semantic HTML</b>                                                                                                                                                                          | Warn | 5.7/10 |
| Expand the title tag to at least 10 characters. Expand the meta description to at least 50 characters. Add missing semantic elements: article.                                                |      |        |
| <b>Structured data</b>                                                                                                                                                                        | Fail | 0/10   |
| Add JSON-LD structured data with Organization or WebSite schema so AI systems can identify the site owner or website entity.                                                                  |      |        |
| <b>Content signals</b>                                                                                                                                                                        | Fail | 0/5    |
| Add the standard directive 'Content-Signal: ai-train=no, search=yes, ai-input=yes' to robots.txt, HTML metadata, or HTTP headers so AI systems can discover content usage preferences.        |      |        |

# Suggested fixes

## Fix Structured data

HTML

```
<script type="application/ld+json">
{
  "@context": "https://schema.org",
  "@graph": [
    {
      "@type": "Organization",
      "@id": "https://www.giftedby.you/#organization",
      "name": "GiftedBy",
      "description": "Cambiamo l'esperienza del regalo",
      "url": "https://www.giftedby.you/",
      "logo": "https://www.giftedby.you/icon.svg?6c9a059f864d6f9c"
    },
    {
      "@type": "WebSite",
      "@id": "https://www.giftedby.you/#website",
      "name": "GiftedBy",
      "description": "Cambiamo l'esperienza del regalo",
      "url": "https://www.giftedby.you/",
      "publisher": {
        "@id": "https://www.giftedby.you/#organization"
      },
      "inLanguage": "it"
    }
  ]
}
</script>
```

## Fix Content signals

HTML

```
<meta http-equiv="Content-Signal" content="ai-train=no, search=yes,
ai-input=yes" />
<meta name="content-signal" content="ai-train=no, search=yes, ai-input=yes"
/>
```
