

LLM Scan

PUBLIC AI VISIBILITY REPORT

www.traccoai.com

Scanned Jun 24, 2026, 11:00 UTC

OVERALL SCORE

36 /100

Poor

Executive summary

This site is difficult for AI tools to read right now. Key strengths include sitemap, while AI guidance file and plain-text page access need attention. Recommended next step: publish an AI guidance file as text or markdown with more than 200 characters, markdown headings, and at least one absolute URL.

Recommended next step

1. Publish /llms.txt as text or markdown with more than 200 characters, markdown headings, and at least one absolute URL.
2. Add content negotiation for Accept: text/markdown on the homepage and return a markdown representation with Content-Type: text/markdown. Keep the HTML response for regular browser requests.
3. Review AI crawler Disallow rules and keep only the paths that should be excluded from AI crawler access; serve a non-empty HTML homepage with a canonical link tag.

Signal breakdown

Crawlability

Warn 10/20

Review AI crawler Disallow rules and keep only the paths that should be excluded from AI crawler access; serve a non-empty HTML homepage with a canonical link tag.

Robots.txt

Warn 7.5/15

Fix robots.txt syntax issues so each rule uses Field: value format, directives appear under a User-agent, and Sitemap entries use absolute URLs.

llms.txt

Fail 0/15

Publish /llms.txt as text or markdown with more than 200 characters, markdown headings, and at least one absolute URL.

Sitemap

Pass 10/10

The sitemap.xml file is valid and contains URL entries.

Markdown support

Fail 0/15

Add content negotiation for Accept: text/markdown on the homepage and return a markdown representation with Content-Type: text/markdown. Keep the HTML response for regular browser requests.

Semantic HTML

Warn 8.6/10

Add missing semantic elements: main, article.

Structured data

Fail 0/10

Add JSON-LD structured data with Organization or WebSite schema so AI systems can identify the site owner or website entity.

Content signals

Fail 0/5

Add the standard directive 'Content-Signal: ai-train=no, search=yes, ai-input=yes' to robots.txt, HTML metadata, or HTTP headers so AI systems can discover content usage preferences.

Suggested fixes

Fix Structured data
