AI - Ready

Executive summary

This site is in strong shape for AI discovery and readability. Key strengths include homepage access and crawler policy, while content signals and page structure need attention. Recommended next step: add the standard directive 'Content-Signal: ai-train=no, search=yes, ai-input=yes' to the crawler policy file, HTML metadata, or HTTP headers so AI systems can discover content usage preferences.

Recommended next step

1. Add the standard directive 'Content-Signal: ai-train=no, search=yes, ai-input=yes' to robots.txt, HTML metadata, or HTTP headers so AI systems can discover content usage preferences.
2. Add exactly one h1 element that describes the page topic. Add missing semantic elements: main, article, nav, footer. Add visible body copy after script and style removal so the page has at least 200 words.

Signal breakdown

Crawlability The homepage resolves, connects, returns HTTP 200 OK, exposes a canonical URL, and is not blocked by robots.txt.	Pass	20/20
Robots.txt robots.txt allows crawler access and includes Sitemap references.	Pass	15/15
llms.txt The llms.txt file was found and includes the expected text, length, heading, and URL signals.	Pass	15/15

Sitemap	Pass	10/10
The sitemap.xml file is valid and contains URL entries.		
Markdown support	Pass	15/15
The homepage returns markdown content when requested with Accept: text/markdown, giving AI systems a cleaner text representation with less navigation chrome to parse.		
Semantic HTML	Warn	5.7/10
Add exactly one h1 element that describes the page topic. Add missing semantic elements: main, article, nav, footer. Add visible body copy after script and style removal so the page has at least 200 words.		
Structured data	Pass	10/10
Valid JSON-LD structured data was found with core Organization or WebSite schema.org types.		
Content signals	Fail	0/5
Add the standard directive 'Content-Signal: ai-train=no, search=yes, ai-input=yes' to robots.txt, HTML metadata, or HTTP headers so AI systems can discover content usage preferences.		

Suggested fixes

Fix Content signals
HTML
<pre><meta http-equiv="Content-Signal" content="ai-train=no, search=yes, ai-input=yes" /> <meta name="content-signal" content="ai-train=no, search=yes, ai-input=yes" /></pre>
