

OVERALL SCORE

93 /100

AI -Ready

Executive summary

This site is in strong shape for AI discovery and readability. Key strengths include homepage access and AI guidance file, while crawler policy needs attention. Recommended next step: fix the crawler policy file syntax issues so each rule uses Field: value format, directives appear under a User-agent, and Sitemap entries use absolute URLs.

Recommended next step

- 1. Fix robots.txt syntax issues so each rule uses Field: value format, directives appear under a User-agent, and Sitemap entries use absolute URLs.

Signal breakdown

Crawlability The homepage resolves, connects, returns HTTP 200 OK, exposes a canonical URL, and is not blocked by robots.txt.	Pass 20/20
Robots.txt Fix robots.txt syntax issues so each rule uses Field: value format, directives appear under a User-agent, and Sitemap entries use absolute URLs.	Warn 7.5/15
llms.txt The llms.txt file was found and includes the expected text, length, heading, and URL signals.	Pass 15/15
Sitemap The sitemap.xml file is valid and contains URL entries.	Pass 10/10

Markdown support The homepage returns markdown content when requested with Accept: text/markdown, giving AI systems a cleaner text representation with less navigation chrome to parse.	Pass 15/15
Semantic HTML The homepage has a valid title, meta description, heading structure, semantic landmarks, substantial body copy, and descriptive anchor text.	Pass 10/10
Structured data Valid JSON-LD structured data was found with core Organization or WebSite schema.org types.	Pass 10/10
Content signals Consider adding robots noai/noimageai directive so AI systems can consistently discover content usage preferences across robots.txt, HTTP headers, and HTML metadata.	Pass 5/5
Suggested fixes	
llms.txt MARKDOWN # LN Homes Venice - Authentic Venetian Apartments Book Direct > Authentic vacation apartments in Venice. Book Ca' Tiepolo, Biennale Garden & San Marco directly for the best rates. This llms.txt file summarizes the public, canonical resources that AI assistants and crawlers should use to understand this site. ## Site Overview - Canonical URL: https://lnhomesvenice.com/ - Site type: organization - Recommended summary: Authentic vacation apartments in Venice. Book Ca' Tiepolo, Biennale Garden & San Marco directly for the best rates. ## Core URLs - [Homepage](https://lnhomesvenice.com/): Primary public entry point and canonical site overview. - [Apartments](https://lnhomesvenice.com/apartments): Important public page discovered from the homepage navigation. - [Venice Tours](https://lnhomesvenice.com/venice-tours): Important public page discovered from the homepage navigation. - [Info & Contact](https://lnhomesvenice.com/contact): Support, help, and contact information. - [Biennale Garden](https://lnhomesvenice.com/biennale-garden): Important public page discovered from the homepage navigation. Content-Signal recommendations

Use these directives to make AI-use preferences explicit for compliant crawlers and AI systems. They are advisory signals, so keep them aligned with robots.txt, terms, and access controls.

Recommended values

- ai-train=no: AI model training, fine-tuning, and dataset creation.
- search=yes: AI search indexing, snippets, and discovery.
- ai-input=yes: AI answer grounding, retrieval, and generated-response context.

HTTP response header

```
'''http
Content-Signal: ai-train=no, search=yes, ai-input=yes
Content-Usage: train-ai=n
'''
```

Best for site-wide or route-specific policies because the signal travels with every response, including pages that AI systems fetch directly.

HTML meta tag alternatives

Add these inside the document '<head>' when server headers are not
