PUBLIC AI VISIBILITY REPORT

foursight.cloud

Scanned Jun 23, 2026, 08:32 UTC

OVERALL SCORE

50 /100

Needs Work

Executive summary

This site has a useful foundation, but important gaps still limit AI readability. Key strengths include AI guidance file and sitemap, while plain-text page access and structured data need attention. Recommended next step: make the homepage respond successfully to requests with Accept: text/markdown, either by serving markdown directly or by adding a markdown variant URL with correct content negotiation.

Recommended next step

1. Make the homepage respond successfully to requests with Accept: text/markdown, either by serving markdown directly or by adding a markdown variant URL with correct content negotiation.
2. Review AI crawler Disallow rules and keep only the paths that should be excluded from AI crawler access; serve a non-empty HTML homepage with a canonical link tag.
3. Add JSON-LD structured data with Organization or WebSite schema so AI systems can identify the site owner or website entity.

Signal breakdown

Crawlability

Warn 10/20

Review AI crawler Disallow rules and keep only the paths that should be excluded from AI crawler access; serve a non-empty HTML homepage with a canonical link tag.

Robots.txt

Warn 7.5/15

Review AI crawler Disallow rules and keep only the paths that should be excluded from AI crawler access.

llms.txt

Pass 15/15

The llms.txt file was found and includes the expected text, length, heading, and URL signals.

Sitemap

Pass 10/10

The sitemap.xml file is valid and contains URL entries.

Markdown support

Fail 0/15

Make the homepage respond successfully to requests with Accept: text/markdown, either by serving markdown directly or by adding a markdown variant URL with correct content negotiation.

Semantic HTML

Warn 7.1/10

Add missing semantic elements: main, article, nav, footer. Add visible body copy after script and style removal so the page has at least 200 words.

Structured data

Fail 0/10

Add JSON-LD structured data with Organization or WebSite schema so AI systems can identify the site owner or website entity.

Content signals

Fail 0/5

Add the standard directive 'Content-Signal: ai-train=no, search=yes, ai-input=yes' to robots.txt, HTML metadata, or HTTP headers so AI systems can discover content usage preferences.

Suggested fixes

Fix Structured data

HTML

```
<script type="application/ld+json">
{
  "@context": "https://schema.org",
  "@graph": [
    {
      "@type": "Organization",
      "@id": "https://foursight.cloud/#organization",
      "name": "FourSight - Multi-Region Website Monitoring & Uptime Alerts",
      "description": "Monitor your websites from 4 global regions with HTTP, DNS,
      SSL, port & keyword checks. Alerts via email, Slack, webhooks & SMS. Free
      plan with 10 monitors.",
      "url": "https://foursight.cloud/",
      "logo": "https://foursight.cloud/favicon.svg"
    },
    {
      "@type": "WebSite",
      "@id": "https://foursight.cloud/#website",
      "name": "FourSight - Multi-Region Website Monitoring & Uptime Alerts",
      "description": "Monitor your websites from 4 global regions with HTTP, DNS,
      SSL, port & keyword checks. Alerts via email, Slack, webhooks & SMS. Free
      plan with 10 monitors.",
      "url": "https://foursight.cloud/",
      "publisher": {
        "@id": "https://foursight.cloud/#organization"
      },
      "inLanguage": "en"
    }
  ]
}
```
